

Lewis N. Mander 75th Birthday Symposium

Colleagues,

Please join with us to celebrate the occasion of Lew Mander's 75th Birthday. We have an excellent selection of speakers that will speak to Lew's enduring interest in natural product elucidation, organic synthesis, and plant physiology.

Plenary Speakers

Paul A. Wender, Bergstrom Professor of Chemistry
Department of Chemistry, Stanford University, USA.

Toward the Ideal Synthesis and Therapeutic Function through Synthesis-Informed Design: Approaches to AIDS Eradication, Alzheimer's Disease, and Resistant Cancer

Ian A. Blair, A. N. Richards Professor of Pharmacology
Department of Pharmacology, University of Pennsylvania, USA.

Biomarkers of Mitochondrial Dysfunction

William Hancock, Bradstreet Chair in Bioanalytical Chemistry
The Barnett Institute of Bioanalytical and Chemical Analysis,
Northeastern University, USA.

TBA

Regan Thomson, Associate Professor
Department of Chemistry, Northwestern University, USA.

Methods and Strategies for Natural Product Synthesis

Invited Speakers

Prof. John Orban Department of Chemistry and Biochemistry, University of Maryland, USA.

Prof. Hongbin Zhang School of Chemical Science and Technology, Yunnan University, Kunming, China.

Dr Ralph Robinson Pfizer Global Research and Development, Groton, USA.

Prof. Christine Willis School of Chemistry, University of Bristol, UK.

Prof Peter Hedden Rothamsted Research, Harpenden, UK.

DATE

Tues 2nd September –
Wed 3rd September

LOCATION

Gibraltar Hotel Bowral
Boronia Street
Bowral NSW 2576
